A BACHELOR’S DEGREE PROGRAM IN A TECHNOLOGY-FOCUSED UNIVERSITY.

NOW THAT’S COMPETITIVE EDGE.
OUR UNDERGRADUATE BUSINESS DEGREE IS DESIGNED TO GIVE YOU AN UNPARALLELED CAREER ADVANTAGE IN TODAY’S GLOBAL ECONOMY.

IIT Stuart is the business school of choice for those who expect more than just a “typical” degree in business administration. It’s a new type of business education for those who want to be leaders in the next economy—and in a world where technology is the foundation of innovation. This degree translates to real career advantage, preparing you with the skills needed to make a meaningful impact on an organization’s success.

WHAT MAKES THE UNDERGRADUATE BUSINESS PROGRAM AT STUART DISTINCTIVE?

• We emphasize analytics and quantitative methodologies, hands-on learning, and real-world problem solving.

• You’ll learn emerging technologies—and how to use them to your advantage.

• Our courses include a focus on entrepreneurship, and our innovative sequence of experiential, project-based courses allows you to explore—in depth—a new business from idea through business plan.

• You can customize your business degree with a specialization in one of IIT’s scientific, professional, and technical disciplines. For example, you may want to pursue a business degree with a focus on computer science or engineering.

YOUR INTRODUCTION TO INTERNATIONAL BUSINESS BEGINS HERE.

Some business students go abroad for international experience. At Stuart, you just need to walk into one of your classes to be part of a global network. You are likely to be in a course with new friends from Europe, Asia, South America, and the Middle East. In addition to the United States, Stuart undergraduates come from all corners of the globe, including Australia, Brazil, China, Colombia, Germany, India, Ireland, Israel, Macedonia, Malaysia, Mexico, Mongolia, Pakistan, Russia, Saint Lucia, Singapore, South Korea, Spain, Trinidad and Tobago, and the United Kingdom.
WE ARE LOCATED IN ONE OF THE WORLD’S GREAT CITIES—AND BUSINESS CENTERS.

Chicago is internationally renowned as a "place to do business"—and Stuart students get the chance to interact with some of the best executive, managerial, and entrepreneurial talent in the world.

It’s also a city that offers unparalleled opportunities and experiences. After all, it’s also known as The Windy City, Second City, The City That Works, and The City of Big Shoulders. The City where White Sox are always in fashion, Blackhawks take to the ice, and the Fire light up the field. And, since it is home to the Cubs, Bulls, and Bears, we also like to call Chicago The City That Roars.
OUR BUSINESS FACULTY SPEAK THE LANGUAGE OF ENGINEERS, SCIENTISTS, MATHEMATICIANS, AND OTHER TECHNOLOGICALLY FOCUSED PROFESSIONALS.

Stuart School of Business faculty are experts in more than just business. That’s because they also bring to the classroom advanced degrees and work experience in such fields as:

- Accounting
- Agricultural Economics
- Analytics
- Chemical Engineering
- Chemistry
- Computer Science
- Electrical Engineering
- Environmental Engineering
- Environmental Science
- Finance
- Industrial Engineering
- Management Science
- Marketing
- Mathematics
- Physics
- Psychology
- Real Estate

B.S. + M.P.A. = MAJOR CAREER ADVANTAGE

Today’s business graduates don’t just want to make money. They want to make a difference. Stuart’s new B.S. in Business Administration/Master of Public Administration co-terminal degree program prepares you to do both—earning both your undergraduate and graduate degrees in only five years.

Combine the quantitative, analytic, economic and managerial skills from your business degree with knowledge of public and nonprofit sector decision-making, law, public finance, policy design and research techniques. Save time—and money—and give yourself a head start on making your mark in the public sector.
A LETTER TO THE LEADERS OF THE NEXT ECONOMY.

From the Dean:

I’m always hearing from colleagues in the business world who are looking for young men and women with business degrees who can also “speak the language” of engineers, architects, and scientists. They want people with strong quantitative skills, knowledge of other professions, an understanding of emerging trends and technologies, and a spirit of innovation and entrepreneurial thinking. They want people who can lead and manage in the “next economy.”

IIT Stuart is the business school where you will find just that type of student. You’ll graduate with a strong background in quantitative skills—and have hands-on experience working collaboratively with colleagues in scientific, technological, and entrepreneurial fields.

IIT Stuart is the business school for the next economy, where change is the only constant. And it is the business school that is educating the men and women who will know how to manage that change—today, tomorrow, and in the decades to come.

This is IIT Stuart. This is where you’ll find your strategically competitive edge.
